

### REMARKS

A Supplemental Declaration is submitted herewith which overcomes the objections and rejections set forth in the sections 3-6 of the Office Action. First, the declaration points out at least one error in the original patent that is corrected by the subject reissue application, and was not corrected by the parent reissue application, US Application 10/457.958, filed June 10, 2003, now US Reissue Patent no. 38,533. In particular, claims 3-5 in the original patent recite a “prompting system for directing a user through a protocol, etc.” It was error to claim the prompting system in claims 3-5 too narrowly in conjunction with both an oxygen delivery system and a defibrillator by making claims 3-5 dependent on either claims 1 or 2. A separate independent claim should have been included that recited the prompting system more broadly in conjunction with an oxygen delivery system but not a defibrillator. The parent reissue application, US Application 10/457.958, filed June 10, 2003, now US Reissue Patent no. 38,533, also does not include such an independent claim. New independent claim 12 in the subject continuation reissue application provides such coverage and therefore corrects this error.

Second, the declaration contains the language required by 37 C.F.R. § 1.175(a)(2) that any errors up to the time of the filing of this reissue supplemental declaration, arose without any deceptive intention on the part of the applicant. This language covers the errors corrected by the Amendments filed July 17, 2006 and June 4, 2007.

A substitute claim amendment section of the Amendment filed June 4, 2007 is also submitted herewith which includes a complete listing of all the claims and the status of each as of the date of the Amendment. This submission overcomes the objection noted in section 8 of the Office Action.

In view of the foregoing, Applicants respectfully submit that all the objections and rejections set forth in the Office Action have been traversed and that the application is now in

condition for allowance. Accordingly, entry of this Response and favorable reconsideration of the application are respectfully requested.

Respectfully submitted,

By:           /wab/
